
Potato Chip Blanching Machine

Necessary of Potato Chip Blanching Processing

Potato Chip Blanching Machine is used for colors treatment in a blancher. An accurate blanching time and correct temperature setting is the key for this process.

Potato Chips blanching machine has water temperature automatically controlled and blanching time adjustable freely.

After blanching process, potato chips or fries will have superior flavor, texture and color while active enzyme is restrained for easy reservation.

Potato Chip Blancher

01 Potato Chip Blancher for small potato chips French fries production Line

Features

Small blanching machine is suitable for frying and freezing potato chips process to have superior flavor, texture and color

Manual and electric automatic discharge is option.

Technical Data

Specification	Power	Weight	Dimension	Operation
